Jodhpur, Rajasthan - 342037, India

OBJECTIVE

My learning in React, Next.js, and MongoDB with interest in contributing to innovative projects of modern world. I'm eager to find solutions for challenges in web development, UI design, and backend integration, while continuously adding up my skills in software development.

EXPERIENCE

- **Freelance Work** Aug 14 2024 - Aug 16 2024
Frontend Development Remote
 - Developed a trademark search interface achieving a streamlined user experience in data search functionalities.
 - Implemented Nextjs, typescript, tailwind CSS and shadcn UI, enhancing UI.
- **Intelligentia Labs** May 2024 - July 2024
Web Developer Intern Remote/Part Time
 - Developed and enhanced UI components using React and some CSS libraries.
 - Built frontend features while learning and integrating new libraries like Recoil for state management and Shadcn UI for design.
 - Assisted with minor backend tasks, gaining a broader understanding of full-stack development.

EDUCATION

- **Gati Shakti Vishwavidyalaya** September 2021 - Present
Bachelor of Technology - ME Vadodara, Gujarat
 - CGPA: 7.79/10
- **Government Senior Secondary School Baori** July 2020
Pre-University Education Jodhpur, Rajasthan
 - Grade: 85.80%

PROJECTS

- **Project A: Payment Application** July 2024 - August 2024
Technology: [MERN] [github]
 - Developed a basic version of a payment gateway application similar to PayTM.
 - Featuring user signup/signin and money transfer functionalities using a full-stack approach with React and Node.js.
 - Integrated MongoDB transactions to handle money transfers between users, ensuring atomicity and consistency in updating account balances across multiple ends.
- **Project B: Business Card Managing Application** April 2024
Technology: [MERN] [github]
 - Developed a web application for creating and managing digital business cards using React and Tailwind CSS.
 - Implemented CRUD operations for user data with Express.js and MongoDB.
 - Zod for data validation before database (mongoose) validation.

SKILLS

- **Programming Languages:** Javascript, Typescript, C
- **Web Technologies:** HTML, CSS, Tailwind, Bootstrap, React, Next.js, ShadCN UI
- **Database Systems:** MongoDB, Mongoose, Prisma, PostgreSQL
- **State Management:** Recoil
- **Cloud Technologies:** AWS, Cloudflare, Serverless
- **DevOps & Version Control:** Docker, Git, GitHub, NPM, JWT, Zod
- **Backend Development:** Node.js, Express
- **Other Tools & Technologies:** Figma, AutoCAD, SolidWorks, Excel, MATLAB
